Article I

DEFINITIONS AND INTERPRETATIONS

Section 6-1 Definitions and Rules of Construction

Unless otherwise specifically provided, or unless otherwise clearly required by the context, the words and phrases defined in this section shall have the meaning indicated when used in this chapter.

(1) *Administrator*. The public works director or any other person designated by the Manager to perform the functions assigned by this chapter to the administrator whenever this ordinance authorizes or requires the administrator to install traffic control devices controlling parking or regulating the amount of movement of traffic on, to, or from a state highway system street and the installation of such a device is in practice a function of the State Department of Transportation, the administrator may discharge their responsibility by requesting the State Department of Transportation to install such device.

(2) *Bicycle*. A non-motorized human powered passenger vehicle with two or three wheels with rubber tires, a frame, handle bars and one or two saddle seats. (Amend. 3/10/92)

(3) *Bike Lane*. That portion of the roadway set aside for the use of bicycles. (Amend. 3/10/92)

(4) *Bike Path*. A pathway primarily designed for bicycles (pedestrian traffic may also be permitted) located either within that portion of a street right-of-way that is separate from the roadway or within a public easement other than a street right-of-way. (Amend. 3/10/92)

(5) *Bikeway*. A thoroughfare suitable for bicycles (and pedestrians), including bike lanes and bike paths. (Amend. 3/10/92)

(6) *Driver*. The operator of a vehicle.

(7) *Electric Bicycle (E-Bike)*. A bicycle, usually designed for a single rider, with a small electric helper motor with less than 750W and a maximum speed of 28 mph on flat surfaces. Riders must be at least 16 years of age. There are three classes of electric bicycles:

Class 1 –Pedal Assist (pedalec). An electric assist bike that provides power only when pedaled, capable of a maximum operating speed of 20 mph. (Class 1 e-bikes are the most common type of e-bikes used for shared active transportation systems.

Class 2—Throttle Assist. A throttle assist electric bicycle provides power without pedaling and is capable of a maximum operating speed for 20 mph.

Class 3—Pedal assist (pedalec) at higher speeds. An electric assist bike that provides power only when pedaled and can reach an operating speed of 28 mph.

(8) *Electric Scooter (E-scooter)*. A vehicle that is steered by a steering handle, designed to be stood upon by the operator while the vehicle is in operation, and powered by a motor capable of propelling the vehicle at a speed no greater than 20 miles per hour on a level surface; and whose wheels have diameters of ten inches or less. Riders must be at least 16 years of age.

(9) *Highway or Street*. The entire width between property or right-of-way lines of every way or place of whatever nature, when any part thereof is open to the use of the public as a matter of right for the purposes of vehicular traffic. The terms "highway" or "street" or a combination of the two terms shall be used synonymous.

(10) *Intersection*. The area embraced within the prolongation of the lateral curblines or, if none, then the lateral edge of roadway lines of two or more highways which join one another at any angle whether or not one such highway crosses the other.

Where a highway includes two roadways 30 feet or more apart, then every crossing of each roadway of such divided highway by an intersecting highway shall be regarded as a separate intersection. In the event that such intersecting highway also includes two roadways 30 feet or more apart, then every crossing of two roadways of such highways shall be regarded as a separate intersection.

(11) *Local Street*. A street within the town that is not part of the State Highway System.

(12) *Micromobility*. Any small, low-speed, human- electric-powered transportation device, including bicycles, scooters, electric-assist bicycles, electric scooters (e-scooters), and other small, lightweight, wheeled conveyances.

(13) *Mo-ped*. A vehicle having two or three wheels and operable pedals and equipped with an internal combustion motor that does not exceed 50 cubic centimeters piston displacement or an electric motor which cannot propel the vehicle at a speed greater than 20 m.p.h. on a level surface. (Amend. 3/10/92)

(14) *Motor Vehicle*. Every vehicle which is self-propelled and every vehicle designed to run upon the highways which is pulled by a self-propelled vehicle. However, this definition shall not include mo-peds as defined in subdivision (10) above. (Amend. 3/10/92)

(15) *Operator*. A person in actual physical control of a vehicle which is in motion or which has the engine running.

(16) *Parking or Standing*. A vehicle is parked or is permitted to stand when it is stopped and allowed to remain in a fixed location for any duration of time, whether attended or unattended. Except where the context clearly indicates otherwise, the limitations on parking and standing in this chapter apply only to locations within a street right-of-way. In no case do these limitations apply when a vehicle is stopped to avoid conflict with other traffic or in compliance with law or the directions of a police officer or traffic control device or as the result of an emergency or because the vehicle is disabled.

(17) *Roadway*. That portion of a highway improved, designed, or ordinarily used for vehicular traffic, exclusive of the shoulder. In the event a highway includes two or more separate roadways the term "roadway" as used herein shall refer to any such roadway separately but not to all such roadways collectively.

(18) *Safety Zone*. Traffic island or other space officially set aside within a highway for the exclusive use of pedestrians and which is so plainly marked or indicated by proper signs as to be plainly visible at all times while set apart as a safety zone.

(19) *Shared Active Transportation System (SATS)*. A business or service that provides one or more shared devices, for rent where, by design of the business, the shared devices are intended to be used within a defined service area and stored or parked within a designated area, or hub, or docking station, when not rented by a customer.

(20) *Shared Device*. A bicycle (defined in subdivision (2)), electric bicycle (defined in subdivision (7)), or electric scooter (defined in subdivision (8)), or other micro mobility device that is rented by a business or service to customers through a SATS (defined in subdivision (19)).

(21) *Shared Lane Marking*. A pavement marking, as described in Section 9C.07 of the Manual on Uniform Traffic Control Devices, 2009 Edition, designed to assist persons riding bicycles with lateral positioning in narrow travel lanes, alert road users of the lateral location bicyclists are likely to occupy within the traveled way, encourage safe passing of bicyclists by motorists, and reduce the incidence of wrong-way bicycling. (Amend. 9/21/2010)

(22) *State Highway System Street*. A street within the town that is part of the State Highway System Streets. Whenever this chapter regulates parking or the movement of traffic on, to, or from a State Highway System Street, then to the extent that concurrence by the State Department of Transportation is necessary (by passage of a concurring ordinance or otherwise) such regulation shall not become effective until such concurrence is obtained. Streets listed in this chapter that are part of the State Highway System are designated by an asterisk(*).

(23) *Street*. The entire width between property or right-of-way lines of every way or place of whatever nature, when any part thereof is open to the use of the public as a matter of right for the purpose of vehicular traffic. The terms "highway" or "street" shall be used synonymously.

(24) *Traffic Control Device*. Any sign, signal, marking or other device placed or erected pursuant to a lawfully adopted ordinance, designed to regulate, warn, guide, or control traffic.

(25) *Traffic Control Signal*. Any device designed to regulate, guide, or control traffic through the use of alternating or flashing lights or by some other mechanical means.

(26) *Vehicle*. Every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power or used exclusively upon fixed rails or tracks, provided, that for the purposes of this chapter, bicycles shall be deemed vehicles and every rider of a bicycle upon a highway shall be subject to the provisions of this chapter applicable to the driver of a vehicle except those which by their nature can have no application.

Section 6-5. Stop Signs at Places Other Than Intersections

The Council finds that a particular hazard exists at the locations enumerated below, and the administrator is hereby directed to erect a stop sign at the locations indicated. The effect of such a stop sign on vehicles and pedestrians shall be as provided in G.S. 20-158 and 20-172.

- (1) Starlite Drive (westbound) approximately 300 feet west of Sunset Drive (Amend. 9/20/2022)
- (2) Starlite Drive (eastbound) approximately 170 feet east of Broad Street (Amend. 9/20/2022)

Section 6-6. One-Way Streets

(a) Whenever a street is designated a one-way street and traffic control devices are installed in accordance with subsection (b) of this section, no person may drive any vehicle on such street except in the direction indicated by the traffic control devices. (Note: G.S. 20-165.1 makes it unlawful to drive contrary to a sign erected by the State Department of Transportation).

(b) The following streets are hereby designated one-way streets as indicated below, and the administrator shall install appropriate traffic control devices at every intersection clearly indicating the direction of lawful traffic movement.

- (1) Shelton Street is one-way north and west from its intersection with Ashe Street to its intersection with Hillsborough Road.
- (2) Poplar Avenue from West Main Street to Greensboro Street one-way in a west to east direction. (Amend. 7/22/80, but effective upon completion of the North Greensboro Street Project and remain in effect for a period of six months thereafter.)

Section 6-7. Yield Right-of-Way Signs at Certain Intersections

The second named street in the following list of intersections is hereby designated as a main traveled or through street, and the administrator shall erect yield right-of-way signs on the first named street at the entrance to the main traveled or through street. The effect of such yield signs on vehicles and pedestrians shall be as provided in G.S. 20-148 and 20-172. (Amend.6/5/2018)

Section 6-8. Turning Regulated

(a) Whenever, pursuant to subsection (b) of this section, appropriate traffic control devices are installed that clearly indicate that right or left turns, U-turns or all turns are prohibited or required from a particular lane of traffic, no person may drive any vehicle contrary to the directions of any traffic control device so installed.

(b) The following restrictions on turning shall henceforth be in effect at the indicated locations and the administrator shall install appropriate traffic control devices that clearly and adequately notify drivers of the turns required or prohibited.

- (1) No U-turns:
 - From the city limits on West Main Street* to the city limits on East Main Street.*
 - From West Main Street* and West Weaver Street* on Weaver Street* to East Main Street* and East Weaver Street.*
 - From East Main Street* and Rosemary Street to Merritt Mill Road.*
 - From North Greensboro Street* and Poplar Avenue to South Greensboro Street* and Carr Street.

- (2) No Left Turns:
 - From Main Street* onto Roberson Street Mondays through Fridays from 7:00 a.m. to 9:00 a.m. and from 4:00 p.m. to 6:00 p.m. (Amend. 1/9/79)
 - From the west bound lane of Main Street* within a distance of 300 feet in a westerly direction measured from the intersection of the centerlines of Main Street* and South Greensboro Street (except that left turns onto South Greensboro Street from Main Street* are permitted.) (Amend 3/25/80)
 - From the north bound lane of South Greensboro Street within a distance measured 250 feet south from the intersection of the centerlines of North Greensboro Street and Main Street* (except that left turns onto Main Street* from South Greensboro Street* are permitted.) (Amend. 3/25/80)

From property abutting Main Street* onto the west bound lane of Main Street* within a distance of 300 feet measured in a westerly direction from the intersection of the centerlines of South Greensboro Street and Main Street.* (Amend. 3/25/80)

Westbound Main* at Merritt Mill

Section 6-9. Unlawful Passing

(a) Whenever, pursuant to subsection (b), appropriate traffic control devices have been installed that clearly indicate that no passing is allowed on a portion of any street, no driver of a vehicle may overtake and pass another on any portion of a street so restricted. (Note: G.S. 20-150(e) makes it unlawful to pass contrary to signs posted by the State Department of Transportation.)

(b) The administrator may install appropriate traffic control devices to indicate that no passing is allowed whenever the administrator determines that passing would be unsafe on that portion of a street because:

- (1) The street intersects with another street;

- (2) The slope or grade of the street is such or the street curves to such an extent that a driver's view is obstructed within a distance of 500 feet;
- (3) Any other conditions exist making passing hazardous.

Section 6-10. Crosswalks and Safety Zones

The Council finds that there is a particular danger to pedestrians crossing the roadway at the following locations and the administrator shall establish and maintain crosswalks and safety zones at these locations by placing marks or lanes upon the surface of the roadway or by other traffic control devices. The effect of such crosswalks upon vehicles and pedestrians shall be as provided in G.S. 20-173, 20-174, and other provisions of law. As provided in G.S. 20-160(b), no driver of a vehicle may drive through or over a safety zone.(Amend. 6/5/2018)

A travel plan shall accompany the application. The travel plan shall show the proposed route of the move within the town, estimate the time for each segment of the move, include a plan to handle traffic so that other users of public streets shall not be unnecessarily delayed or inconvenienced and estimate the nature and extent of participation by town personnel that may be needed. Each application for a permit under this section shall be accompanied by a non-refundable application fee (in an amount set annually by the Council) to help defray the cost of administering the permit application.

(c) After reviewing the permit application and travel plan, the administrator shall issue the permit if the administrator concludes that: (i) the route can appropriately accommodate the move, giving due consideration to roadway weight limits, bridge size or weight limits, and obstructions such as traffic signals, signs, utility lines and vegetation, and (ii) the move will not unreasonably interrupt traffic flow or seriously interfere with the safety or convenience of the public. If the administrator decides not to issue the permit, the applicant shall be notified as to the reasons why the permit was denied.

(d) In issuing a permit under this section, the administrator may require the applicant to post a surety bond or other satisfactory security in an amount sufficient to cover the cost of (i) any damage to pavement, structures, bridges, roadways or other town property that may occur as a result of the move, (ii) the provision of town personnel for traffic and safety purposes, and (iii) the removal and replacement of obstructions necessitated by the move.

(e) An applicant may appeal a decision of the administrator denying a permit under subsection (c) or setting bond under subsection (d) to the Town Council by giving oral or written notice of appeal to the administrator. An appeal under this subsection shall be heard by the Town Council at the next regular meeting where the item can be considered pursuant to normal agenda procedures. After considering the application, travel plan and any additional information provided by the applicant and administrator, the Council may affirm, reverse or modify the administrator's decision.

(f) Following the move of a house under this section, the permit holder shall reimburse the town for the cost of providing police officers and other town personnel for traffic control and escort service during the move as well as the costs associated with removal and replacement of obstructions. The amount to be reimbursed shall be two times the hourly wage of the town personnel involved multiplied by the numbers of hours of work necessitated by the move. Failure to obtain a permit under this section shall not relieve the obligations of this subsection.

(g) The permittee assumes all responsibility for injury to persons or damage to property of any kind and agrees to hold the town harmless for any claims arising out of the permittee's conduct or actions.

(h) For purposes of this section, the "administrator" shall be the manager or any person designated by the manager to perform the duties assigned to the administrator by this section. The

word "house" as used in this section shall mean a dwelling, building, or other structure in excess of 14 feet in width.

(i) An application submitted pursuant to subsection (b) of this Section shall also constitute an application under Section 2604.2 of the North Carolina State Building Code. However, nothing in this Section shall relieve an applicant of any requirement of Section 204 of the North Carolina State Building Code.

(j) Nothing in this Section shall relieve an applicant who intends to locate a house in the Town's planning jurisdiction from securing all approvals and permits required by Chapter 15 of the Town Code.

REGISTRATION AND LICENSE TAX

(Amend 7/1/86, 7/1/88, 2/12/2002)

Section 6-29 Payment of Motor Vehicle License Tax

(a) The registered owner of each motor vehicle that displays a current license plate and is registered to an address with the Town of Carrboro shall pay annually to the town a motor vehicle tax of thirty dollars (\$30.00) as a compensatory tax for the privilege of using the public streets and highways with the town. Of this sum, twenty five dollars (\$25.00) shall be regarded as a general municipal vehicle tax under G.S. 20-97(b), as amended by Chapter 306 of the 2005 Session Laws, and five dollars (\$5.00) shall constitute a municipal tax for public transportation under G.S. 20-97(c). (Amend. 6/3/08)

(b) With respect to each vehicle subject to the tax authorized by this section, the tax year shall run concurrently with the tax year for property taxes levied upon such vehicle under Article 22A of G.S. Chapter 105. Accordingly, the taxes shall be due on the same date that property taxes are due for such vehicle under G.S. Chapter 105, and Orange County shall collect the taxes levied under this section at the same time it collects the property taxes owed on such vehicle under G.S. Chapter 105.

- c. Wesley Street (Amend. 11/16/2010)
- d. East Weaver Street from North Greensboro Street to East Main Street (Amend. 9/6/11)

Section 6-35 Direction of Travel

Except for bike paths, all bikeways shall carry bicycle traffic only in the direction of the nearest adjacent traffic lane. Traffic may proceed in both directions along the Libba Cotten bike path, subject to the remaining provisions of this article.

Section 6-36 Restrictions Upon Use of Bikeways By Motor Vehicles

(1) No person may drive a motor vehicle upon or across a bikeway except at the intersections of streets or driveways, or buses loading or unloading passengers at bus stops.

(2) Prohibitions against parking in bike lanes are contained in Section 6-18 (a)(14) of this code.

Section 6-37 Shared Usage By Bicyclists, Pedestrians and others using Micromobility Devices

While roadways are provided primarily for the safety and convenience of motor vehicles, sidewalks are provided primarily for the safety and convenience of pedestrians, and bikeways are provided primarily for the safety and convenience of bicycles, it is recognized that in many instances such facilities may be shared. Where these facilities are shared, pedestrians and bicyclists shall exercise extreme caution and the following regulations shall apply:

(1) When using bike paths where there is no designated pedestrian area, pedestrians shall walk as far to the right as practicable, shall walk no more than two abreast, and shall exercise due care. On a bike path, when passing pedestrians or another bicyclist from the rear, bicyclists shall pass only on the left and only after giving an audible signal.

(2) Class 1 and class 2 electric bicycles, electric scooters and other types of micromobility devices may be operated on bike paths subject to the provisions of subsection (1) above; travel speeds shall not exceed fifteen miles per hour. When the micromobility device is a shared device and the speed limit can be controlled by the shared active transportation system, the speed limit shall be functionally capped to fifteen miles per hours on bike paths.

(3) When using those sidewalks where bicycle traffic is permitted, bicyclists shall not exceed seven miles per hour; shall yield the right-of-way to pedestrians; and, when passing pedestrians from the rear, bicyclists shall pass only on the left and only after giving an audible signal to such pedestrians; and shall not ride on any sidewalk in such a way as to endanger pedestrians.

(4) The area along the north side of East Poplar Avenue shall be a pedestrian lane, and no person may ride, drive or park any vehicle (including a bicycle) upon such pedestrian lane.

Section 6-38 Bicycle and Motor Vehicles Prohibited on Certain Sidewalks (Amend. 10/13/98)

(a) No person riding a bicycle may go upon the sidewalks of any of the following areas of Town:

Both sides of Main Street from the intersection of Greensboro St. to the intersection of Weaver Street.

(b) No person may operate upon any sidewalk a motor vehicle (including without limitation on any riding lawn mower or other motorized device designed to carry one or more persons, but not including a motorized wheelchair or similar device designed principally to convey a person with limited mobility). (Amend. 10/13/98)

Section 6-39 Bicycles, including Electric Bicycles, Electric Scooters and other Micromobility Devices Subject to General Statues

(1) Unless otherwise specifically provided in this chapter, bicycles, electric bicycles, electric scooters and other micromobility devices shall be deemed vehicles and every rider of a bicycle upon a street, bikeway, or sidewalk shall be subject to the provisions of this chapter and all the rules of the road set forth in state law applicable to the driver of a vehicle except those which be their nature can have no application. Without limiting the foregoing, persons riding bicycles:

- (a) Shall obey the instructions of official traffic control signs and other traffic control devices applicable to vehicles and bicycles, unless directed otherwise by a police officer.
- (b) Shall yield the right-of-way to vehicles, other bicycles, and pedestrians according to the rules of the road applicable to other vehicles.
- (c) Shall not pass other vehicles on the right except to the limited extent that motor vehicles are authorized to pass on the right as set forth in G.S. 20-150.1.
- (d) Shall merge with traffic at the end of bike lanes at intersections.

(2) No bicycles, electric bicycles, electric scooters and other micromobility devices may be operated on any street, sidewalk, or bikeway without all of the safety equipment required by state law. Without limiting the foregoing, and as provided in G.S. 20-129(e), every bicycle shall be equipped with a lighted lamp on the front thereof, visible under normal atmospheric conditions from a distance of a least 300 feet in front of such bicycle, and shall also be equipped with a reflex mirror or lamp on the rear exhibiting a red light visible under light conditions from a distance of at least 200 feet to the rear of such bicycle, when used at night.

Section 6-40 Voluntary Registration of Bicycles

To deter the theft of bicycles and to assist in investigation bicycle theft, recovering lost or stolen bicycles and returning such bicycles to their proper owners, the Town Manager is authorized to establish a program for the voluntary registration of all bicycles residing within the town.

Section 6-40.1 Helmets Required for Bicycles (Amend. 9/16/97)

(a) Every person sixteen (16) years of age or under operating a bicycle on a public right-of-way within the town shall wear a protective helmet on their head, with the chin strap fastened under chin. Such helmet shall be fitted the size of the operator and shall meet or exceed the ANSI (American National Standards Institute) z90.4 or subsequent bicycle helmet standards, or the Snell Memorial Foundation's 1984 Standard for Protective Headgear for Use in Bicycling or subsequent standards.

(b) No person operating a bicycle on a public right-of-way shall allow anyone to ride as a passenger unless the passenger is wearing a helmet as defined in subsection (1) above or else is in an enclosed trailer or other device which meets or exceeds current nationally recognized standards or design and manufacture for the protection of the passenger's head from impacts in an accident without the need for a helmet.

Section 6-40.2 Shared Active Transportation Systems for Bicycles, Electric Bicycles, Electric Scooters and other Micromobility Devices

The Town may allow, by permit or contractual agreement allow for the establishment of one or more shared active transportation systems subject to the following provisions.

(1) The shared active transportation system shall identify a service area where, subject to the standards in this chapter, shared devices may be operated without penalty and locations where such devices may be stored when not in use. Such storage locations may include formal docking stations or racks, or informal areas or hubs designated by pavement markings, textured pavement treatments, signage or some combination.

(2) Placement of shared devices when not in use by a customer shall be within these designated storage areas.

(3) If a storage area is not available, the operator of the shared device may place the device along the sidewalk or other public right-of-way so long as such placement shall not impede movement to such an extent that a person with a motorized wheelchair (or similar device designed principally to convey a person with limited mobility) cannot safely navigate the sidewalk.

a. If a shared device is found obstructing the sidewalk, it shall be the responsibility of the shared active transportation system, when notified, to retrieve the device and return it to an allowed parking location.

b. If a shared device is found outside the public right-of-way it shall be the responsibility of the Shared Active Transportation System to retrieve the device and return it to an allowed parking location.

c. If a shared device is found in a location where it is inaccessible to customers, it shall be the responsibility of the Shared Active Transportation System to retrieve the device and return it to use.

d. If a shared device is found to be inoperable, it shall be the responsibility of the Shared Active Transportation System to retrieve the device and remove it from use.

(4) The Shared Active Transportation System shall provide the Town with anonymized data from the usage of the system in the form of the General Bikeshare Specification Feed (GBSF).

(5) The Shared Active Transportation System shall provide a method by which people can access the system without needing a smartphone or bank account in addition to a payment system using a smart phone application.

(6) The Shared Active Transportation System shall provide safety information and inform users of the need to wear helmets while operating their shared devices.

(7) Any other provisions as included in the permit or contractual agreement with Town.
