

TOWN OF CARRBORO
INSPECTIONS DIVISION
301 West Main Street, Carrboro, N.C. 27510

APPLICATION FOR CONDITIONAL ELECTRICAL SERVICE

BUILDING LOCATION:	BUILDING PERMIT #:
---------------------------	---------------------------

CONDITIONAL ELECTRICAL SERVICE IS NECESSARY FOR THE FOLLOWING REASON:

STATEMENTS OF UNDERSTANDING:

- ❖ I (We) understand that no power shall be used as a convenience.
- ❖ I (We) understand that all workmen shall use GFCI protected power for construction.
- ❖ I (We) understand that the contractor shall be responsible for the life and safety of workers.
- ❖ I (We) understand all 120 volt/ 240 volt outlets present on site while construction work is going on shall be GFCI protected.
- ❖ I (We) understand that only circuits to be energized shall be the air handle(s)/ furnace(s), one 120 volt GFCI protected outlet per floor/ level, and one 240 volt GFCI protected outlet per structure.
- ❖ I (We) understand that all other circuits not to be energized shall be secured away from the busbar and with a wire nut or taped off to prevent accidental contact with live parts.
- ❖ I (We) understand that the general contractor, electrical contractor and property owner(s) shall assume responsibility for maintaining the building in a safe and secure manner while under conditional service.
- ❖ I (We) understand and accept that should the conditions of this Agreement be violated or should the building be occupied prior to the issuance of a Certificate of Occupancy per North Carolina General Statutes, Section 160D-1116, this authorization will be immediately evoked and the electrical utility company will be directed to disconnect electrical service to the building.
- ❖ I (We) understand this approval is only valid for 90 days after the inspection has passed. After 90 days another application and inspection must be passed to extend temporary power to the structure.
- ❖ I (We) understand that any violations of the above-stated conditions, this privilege will be suspended for one (1) year.
